Criteria

7:1:5

1) Restricted entry of Automobiles

The ADSLC has restricted entry of Automobiles, it means:

- i. Only Staff staying far away and in exceptional cases are given permission to bring automobiles.
- ii. All students are restricted to use automobiles. The management does not provide parking space and entry to the students with automobiles. Almost 100% students comply to use the public transport means.
- iii. Only Limited teaching and non- teaching staff are permitted to use vehicles where the vehicle is parked at entrance parking bay. Automobiles are not permitted to enter the campus area to avoid noise, air pollution or Pedestrian path.

4) Ban on Use of plastic

Plastic bags are a major cause of environmental pollution. It causes untidiness in the campus, attracts animals and are the main cause of pollution.

ADSLC restricts the use of plastic in campus by spreading awareness through flyers and banners which are displayed at various places.

ADSLC had carried out environmental audit for the promotion of Green campus audit, especially to promote ban on use of plastics.

ABOUT COLLEGE –

Mangaon Shikshan Prasarak Mandal's ASHOKDADA SABLE LAW COLLEGE is one of the premiere institutes in Kokan (Raigad) region of Maharashtra. Hon. Adv. Rajiv Ashok sable president and the Founder Member of Mangaon Shikshan Prasarak Mandal's took initiative in establishing various colleges in this region and Law college was one of the colleges established for imparting legal education to the poor, needy and downtrodden people. Today Ashokdada sable Law College stands with a bright future. Here at ASHOKDADA SABLE LAW COLLEGE learning makes the individual socially relevant, technically competent and professionally sound. The college has a vision to promote excellence in the field of legal education. Here at Ashokdada sable law College the law course has been developed in consultation with the legal professionals and other key stake holders to ensure students gain practical, work-ready skills, underpinned by a strong foundation of law, legal theory and professional training.

Taking into account the necessity of protecting environment for a sustainable, pollution-free and healthy life on the planet Earth in the coming years. The college endeavours to follow this policy strictly by actually enacting to and also creating environmental consciousness among the students and thereby among the society in general by organizing various activities within and outside the campus.

The college works towards creating a green, pollution-free and healthy environment with a missionary zeal and dedication. The students are given strict instructions to maintain the campus clean and green and it is reflected in the college.

Green Campus Policy

The Green Campus Policy of the college visualizes a Clean and Green Campus where environmental friendly practices and education combine to promote sustainable and eco-friendly practices in the campus and beyond the campus. It also offers the institution an opportunity to take the lead in redefining its environmental culture through inculcating environmental ethics among the students and staff.

Mission

To create environmental consciousness among the society and actively involve in the activities to protect the environment for a sustainable, pollution-free and healthy life ahead.

Objectives

- To create awareness in students and staff to minimize the use of environment-friendly products and services.
- To inculcate the importance of cleanliness for a healthy life among student and staff
- To aware students about environmental issues by organizing Events like Awareness Campaigns, Cleanliness Drives, Workshops, Presentations, Tree Plantation Drives, Conference, Competition on "SAY NO TO PLASTIC" etc.

Initiatives Taken to Implement the Clean and Green Campus Policy

- The Institution is committed to managing its campus in accordance with its Clean and Green Campus Policy by establishing the following infrastructure and carrying out the following activities:
- Landscaping with Trees and Plants
- Ban on Single-Use Plastic
- 30 Kv. Solar Plant in the College
- Street Lights Controller
- Use of LED Bulbs/Tubes and Power Efficient Equipment's
- Rainwater Harvesting
- Paperless Office and Communication
- Solid Waste Management
- Liquid waste management system through percolation system: -
- Water Management
- E-waste Management
- Display Boards to Promote Environmental Sensibility on College Campus
- Observance of Days to protect and Nurture Environment
- The Green, Environmental and Energy Audit

The following infrastructure has been established, and the following actions are being carried out, as part of the Institution's commitment to managing its campus in compliance with the Clean and Green Campus Policy:

✚ Landscaping with Trees and Plants:

In accordance with the Clean and Green Policy of Ashokdada Sable Law College, Mangaon the college works to grow a wide variety of attractive ornamental plant species and medicinal trees both inside and outside the campus. The College organize tree planting drives, which are regularly undertaken by NSS Unit.

✚ Plastic Free campus:

Single-use plastics are totally prohibited in all areas of Ashokdada Sable Law College, Mangaon , including the canteen, classrooms and the laboratories. The college provides eco-friendly alternatives such as stainless steel washable and reusable tumblers, and the canteen is required to serve food only on glass, or stainless-steel plates. The use of single-use plastic is completely prohibited in college campus and in all significant college meetings and events organized according to college administration policy.

✚ Installation of energy-efficient equipment and alternative energy sources:

The college installed a solar energy plant on the roof of its main building. Since these solar panels were installed, MSEDCL's electricity bills have significantly decreased. The solar panels' energy production is connected to the MSEDCL power grid, which receives the power generated by the panels in exchange for a subsidy from the MSEDCL for the college electricity use. The college is committed to installing energy-saving and environment friendly electrical appliances. In order to reduce energy usage, most tube lights and lamps in classrooms, Library, moot court and passages have been replaced with compact fluorescent bulbs or LED bulbs.

Boards are displayed everywhere to switch off the light's seminar hall, classrooms, and library when not in use.

Water Harvesting for water conservati

Water harvesting, the college makes sure that rainwater is conserved. Rainwater

from the roof top outlets is transported via pipelines attached to the big water harvesting tanks. Rainwater collected in the tank is used to irrigate the plants in the medicinal Garden. In order to utilise harvested rainwater for irrigating the plants of medicinal garden, the college built big tanks next to the medicinal garden. Furthermore, the excess rainwater from these tanks is transported to the soak pit in order to replenish the groundwater.

Process of waste management:

Ashokdada Sable Law College, Mangaon disposes of the garbage produced at the college with complete accountability and after taking all necessary safety measures. The agreements for waste management are made with various agencies.

By separating waste into dry and wet categories using the designated dustbins, which are placed in strategic spots and given to the local municipal truck, the campus is kept clean and environmentally friendly. Vermicomposting is utilised to process all of the solid waste that is gathered from the campus. Such vermicompost is intended for use in gardening. A stack of one-sidedly printed paper that is used for routine rough paper work. Awareness is made among the students to reduce their electronic waste and to make arrangements for environmentally friendly disposal. Display boards to Encourage Environmental Awareness in College Campus:

Numerous boards have quotes that support environmental ethics and awareness, such as reducing air pollution, eliminating plastic on campus, conserving energy, recycling resources, and planting trees, displays about nature conservation, plantations and other topics are available to all college stakeholders.

Environment Centric Awareness Activities:

The college supports environmental awareness initiatives, plantation programmes, cleanliness drives both on and off campus, and environmental day celebrations.

Environmental audits:

To evaluate the college campus's strengths and shortcomings for long-term sustainability, the college plans to regularly do a Green Audit. An effective method for figuring out how and where to most resources, including water and electricity, are being consumed. Green audit

effective method of using natural resources while regulating all sustainable and

environmentally friendly actions. Additionally, it raises awareness of environmental issues among employees at institutions as a whole. The energy audit will find energy waste thanks to its specialised technologies. Upon inspection, many defects that result in substantial energy loss are frequently found that the college is unable to identify.

+ Clean Campus Drive:

The college actively encourages staff and students to maintain a clean and green campus in compliance with Swachh Bharat Abhiyan. The college administration takes the lead on the clean and green campus initiative by ensuring that resources, personnel, and waste handling methods are properly distributed throughout the year. The initiatives under this include:

Raising staff and student awareness of hygiene and cleanliness through cleanliness initiatives and awareness campaigns.

Conserving and tending to the variety of flora and trees that are a part of the college campus a healthy source of oxygen that contributes to the institute's vegetation.

A crucial element of all the community activity that NSS undertakes is the planning of demonstrations, plays, and awareness campaigns on subjects linked to the "Swachh Bharat Abhiyan."

Make a commitment to trash management and upkeep of a tidy campus, particularly during college events.

Implement a tree-planting initiative to preserve a clean, green environment.

Offering miniature plants instead of bouquets as a gesture of appreciation to guests invited to participate in the college's numerous programmes.

10) Description in 500 words.

In response to the growing environmental concerns and the need for sustainable practices, the leadership at ADSLC has undertaken a comprehensive initiative to transform its campus into an eco-friendly heaven. This multifaceted approach encompasses a range of strategies, each contributing to the overall goal of creating a green and sustainable environment.

1) Restricted Entry of Automobiles:

ADSLC has implemented a stringent policy limiting the entry of automobiles on campus. While exceptions are made for staff residing far away, students are entirely prohibited from using personal vehicles. Even the limited staffs with vehicles are permitted to park at designated areas near the entrance, preventing noise and air pollution within the campus.

2) Use of Bicycles/Battery-Powered Vehicles:

Promoting sustainable transportation, ADSLC encourages the use of bicycles or battery-powered vehicles. This policy is especially enforced for students, limiting their options to these eco-friendly modes of transport. Staff members are also expected to adhere to these guidelines, with bicycles restricted to parking zones near the entrance.

3) Pedestrian-Friendly Pathways:

The pathways within the campus are meticulously designed to be pedestrian-friendly. Wide tar roads, approximately feet in width, adorned with trees on both sides, create a serene and well-maintained environment. These pathways ensure a peaceful and safe passage for students, staff, and visitors, free from the disturbances of vehicular traffic.

4) Ban on Use of Plastics:

Recognizing the environmental hazards posed by plastic, ADSLC has implemented a strict ban on its use within the campus. This initiative aims to reduce visual pollution, minimize harm to wildlife, and foster an eco-conscious community. The institution undertakes awareness campaigns through flyers and banners, fostering a sense of responsibility among

5) Campus Covered with Trees:

One of the distinctive features of ADSLC is its extensive green cover. The campus boasts a variety of well-maintained trees, providing a natural aesthetic that is uncommon in metropolitan settings. This green oasis not only enhances the beauty of the campus but also contributes to the overall well-being of the ADSLC community.

6) Potted Plants:

Complementing the natural landscape, ADSLC has strategically placed potted plants throughout the campus. These green additions not only contribute to the aesthetic appeal but also signify the institution's commitment to a sustainable and environmentally conscious campus.

7) Report of Activities for the Implementation of Green Campus:

ADSLC has not only implemented these green initiatives but also actively reports on its activities for the promotion of a sustainable campus. This involves a comprehensive approach, including the importance of a green campus, direct and indirect activities, and the positive impact on aesthetics, environmental pollution reduction, and the creation of a healthy teaching and learning atmosphere.

In conclusion, ADSLC's commitment to a green campus is evident through its holistic approach, covering transportation, infrastructure, and awareness. By embracing sustainability, ADSLC not only sets an example for educational institutions but also cultivates a culture of environmental responsibility among its students and staff. This initiative stands as a testament to the institution's dedication to fostering a harmonious coexistence with the environment.
