INTRODUCTION

Mangaon Shikshan Prasarak Mandal (MSPM)

With the need of quality education in a small town like Mangaon, Mangaon Shikshan Prasarak Mandal was established in 1958. Mangaon Shikshan Prasarak Mandal started its contribution by starting high school in Mangaon; then adding other educational institutions like Mangaon Junior College, D.G. Tatkar Mahavidyalaya, Pre-Primary & Primary English School under its ambit. It was a golden day of August 2019 when Ashokdada Sable Law College was also added to Mangaon Shikshan Prasarak Mandal's family.

MSPM took lead in education because of Hon. Adv. Rajivji Sable. He is working as President of MSPM for last 28 years. Adv. Rajivji Sable is a learned personality. Hon. Adv. Rajivji Sable is having a dynamic vision of present and future. His vision, mission of the Mangaon Shikshan Prasarak Mandal is to inculcate value-based, quality-assured, and activity-oriented education.

Ashokdada Sable Law College (ADS Law College)

ADS Law College or in its full name Ashokdada Sable Law College, Mangaon, is a non-aided law college; affiliated to University of MANGAON & approved by Bar Council of India. It was established in 2019 and offers undergraduate & postgraduate law courses and additional add-on law diploma courses. The college is located in a spacious area next to Mangaon-District Court so that students can take practical experience while learning.

College started its first batch in the academic year 2019-2020; so far, we have completed 5 academic years successfully. In this journey of 5 years college has achieved great achievements with 100% result & 3 successful batches.

This law college has its own separate building with one of the best infrastructures and multiple amenities like an elevator, separate library, ramp for disabled, huge playground, medical facilities, moot court, and a conference hall, etc. The college is having a big & beautiful library with more than 10,000 books including text books, commentaries, law journals, periodicals, reports of law

1. Processing of Programs:

Principal and staff works on a program for improvement in the life of general public in the district. Every program is having guidelines to follow along with funds sanctioned. EO, BEO and department heads are responsible for timely & effective execution of these programs. The ADSLC President & the other elected members provide valuable inputs to enhance effectiveness of the service. The list of actual beneficiary is collected from SOCIETY or district levels from people's representatives, as appropriate.

2. Planning:

Principal and staff discuss on these programs and plan for execution. Responsibilities are fixed with department staff. Department head and section officer plan for purchasing of materials if any required in the program. Periodical visits to the locality are planned and staff including department head collects all info required to execute the plan.

3. Purchasing:

Principle and Staff plan for purchasing of materials if any required in the program. Tenders are processed and issued to approve suppliers. At times, as appropriate, the suppliers are selected from the vendors having a rate contract with the ADSLC. The suppliers are selected on the basis of their ability to meet the requirements and purchase orders are released to supplier. The material specifications are provided to supplier.

4. Service Provision:

Principle/ staff responsible for the program follows guidelines strictly and arrange for all required supporting services from other department from ADSLC, MANGAON. In case of disbursement of payments to the beneficiary, the cheques are prepared and issued to bank. The payments are collected by beneficiary from the bank. The materials are issued to respective body and distributed as appropriate.

5. Monitoring & Measurement:

Principle/staff prepares monthly balance sheet and submit it to AUTHORITY stating the various program related to that dept., Funds received / utilized and effective performance of the department. Department head takes ownership for performance of the programs. At the end of the financial year ADSLC MANGAON ADSLC World prepares annual work report stating programs received, executed and overall performance of the same.

6. Customers Feedback & Recording Process:

The feedback is collected from the beneficiary for the services provided to them by ADSLC MANGAON. The yearly feedback so obtained is recorded and analyzed and data is taken as input to Management review.

In case of customer complaint, it is registered in the customer complaint register maintained at each dept. and root cause analysis is conducted in order to plan corrective actions.

Sequencing & interaction among these processes & within themselves is determined. Criteria & methods needed to ensure effective operation & control of these processes is determined.

Resources & information necessary to operate & monitor these processes is provided. These processes are monitored, measured & analyzed from time to time & actions are implemented to get the results planned & also continually improve the processes.

ADSLC MANGAON has not outsourced any process to provide its services. Whenever it will do so the control over such processes will be suitably identified & addressed.

4.2 Understanding the needs and expectations of interested parties

Due to their impact or potential impact on the ADSLC ability to consistently provide products and services that meet customer and applicable statutory and regulatory requirements, ADSLC has determined:

- The interested parties (customer) that are relevant to the quality management system;
- The requirements of these interested parties that are relevant to the quality management system.

ADSLC monitor and review the information about these interested parties and their relevant requirements.

8 Operation

8.1 Operational planning and control

ADSLC plan, implement and control the processes needed to meet requirements for the provision of services and to implement the actions by:

- a) Determining requirements for the services;
- b) Establishing criteria for the processes and for the acceptance of services;
- c) Determining the resources needed to achieve conformity to service requirements;
- d) Implementing control of the processes in accordance with the criteria;
- e) Retaining documented information to the extent necessary to have confidence that the processes have been carried out as planned and to demonstrate conformity of services to requirements. The output of this planning is suitable for the ADSLC operations.

ADSLC control planned changes and review the consequences of unintended changes, taking action to mitigate any adverse effects, as necessary.

ADSLC ensure that outsourced processes are controlled (Refer Outsourced processes)

8.2 Determination of requirements for products and services

8.2.1 Customer communication

ADSLC established the processes for communicating with customers in relation to:

- a) Information relating to products and services;
- b) Enquiries, contracts or order handling, including changes;
- c) Obtaining customer views and perceptions, including customer complaints;
- d) The handling or treatment of customer property, if applicable;
- e) Specific requirements for contingency actions, when relevant.

8.2.2 Determination of requirements related to products and services

ADSLC has established, implemented and maintained a process to determine the requirements for the products and services to be offered to potential customers.

ADSLC ensures that:

- a) product and service requirements and applicable statutory and regulatory requirements, are defined;
- b) It has the ability to meet the defined requirements and substantiate the claims for the products and services it offers.

above and define both the controls it intends to apply to the external provider and those it intends to apply to the resulting process output.

8.4.3 Information for external providers

ADSLC communicate to external providers applicable requirements for the following:

- a) the products and services to be provided or the processes to be performed on behalf of ADSLC ;
- b) approval or release of products and services, methods, processes or equipment;
- c) competence of personnel, including necessary qualification;
- d) their interactions with the organization's quality management system;
- e) the control and monitoring of the external provider's performance to be applied by the organization;
- f) Verification activities that the organization, or its customer, intends to perform at the external provider's premises.

The organization shall ensure the adequacy of specified requirements prior to their communication to the external provider.

8.5 Production and service provision

8.5.1 Control of production and service provision

ADSLC implement controlled conditions for service provision, including delivery and post-delivery activities.

Controlled conditions include,

- a) the availability of documented information that defines the characteristics of the product and services;
- b) the availability of documented information that defines the activities to be performed and the results to be achieved;
- c) Monitoring and measurement activities at appropriate stages to verify that criteria for control of processes and process outputs, and acceptance criteria for products and services, have been met.
- d) the use, and control of suitable infrastructure and process environment;
- e) the availability and use of suitable monitoring and measuring resources;
- f) the competence and, where applicable, required qualification of persons;
- g) the validation, and periodic revalidation, of the ability to achieve planned results of any process for production and service provision where the resulting output cannot be verified by subsequent monitoring or measurement;
- h) The implementation of products and services release, delivery and post-delivery activities.

Where necessary to ensure conformity of products and services, ADSLC use suitable means to identify process outputs.

ADSLC identifies the status of process outputs with respect to monitoring and measurement requirements throughout service provision.

Where traceability is a requirement, ADSLC control the unique identification of the process outputs, and retain any documented information necessary to maintain traceability.

8.5.3 Property belonging to customers or external providers

Customer property like samples from customer or drawings / specification provided for use or for incorporation into the product is suitably identified, verified, protected and safe guarded. If any customer property is lost or damaged or found to be unsuitable for use, the same shall be reported to the customer and records shall be maintained as per control of records procedure no. PM/01.

Specifications, drawings, and technical information received from the customer is treated as the intellectual property of the customer & is also protected for its secrecy as appropriate.

8.5.4 Preservation

ADSLC ensures preservation of process outputs during production and service provision, to the extent necessary to maintain conformity to requirements.

8.5.5 Post-delivery activities

ADSLC meet requirements for post-delivery activities associated with the services. In determining the extent of post-delivery activities that are required, ADSLC considers:

- a) The risks associated with the services;
- b) The nature, use and intended lifetime of the services;
- c) Customer feedback;
- d) Statutory and regulatory requirements.

8.5.6 Control of changes

ADSLC review and control unplanned changes essential for service provision to the extent necessary to ensure continuing conformity with specified requirements. ADSLC retain documented information describing the results of the review of changes, the personnel authorizing the change, and any necessary actions.

8.6 Release of products and services

ADSLC implement the planned arrangements at appropriate stages to verify that product and service have been met. Evidence of conformity with the acceptance criteria are retained.

Arrangements for verification of conformity have been satisfactorily completed, unless otherwise approved by a relevant authority and, as applicable, by the customer. Documented information provides traceability to the person authorizing release of products and services for delivery to the customer.

8.7 Control of nonconforming process outputs, products and services

ADSLC ensure process outputs, products and services that do not conform to requirements are identified and controlled to prevent their unintended use or delivery. ADSLC takes appropriate corrective action based on the nature of the nonconformity and its impact on the conformity of products and services. This applies also to nonconforming products and services detected after delivery of the products or during the provision of the service.

ADSLC deal with nonconforming process outputs, products and services in one or more of the following ways:

- Correction;
- Segregation, containment, return or suspension of provision of products and services;
- Informing the customer;
- Obtaining authorization for: use "as-is"; release, continuation or re-provision of the products and services; acceptance under concession. Where nonconforming process outputs, products and services are corrected, conformity to the requirements are verified. ADSLC retain documented information of actions taken on nonconforming process outputs, products and services, including on any concessions obtained and on the person or authority that made the decision regarding dealing with the nonconformity.
