**7.1.4 (F)  
Conservation plan for water  
saving around the campus**

  
Principal  
Ashokdada Sable Law College  
Mangaon-Raigad

## Conservation plan for water saving around the campus

- Institute has water conservation system.

Ref.....

Date : / /20

- Institute has waste water recycle system.
- The majority of college campus water use comes from toilets, washing machines, showers, baths, faucets and leaks, but college has plan to save water is fairly simple.
- Putting a brick in toilet's water tank. You flush an average of 20 gallons of water a day down the toilet. Toilet tanks filled with brick and that will displace some of that water.
- Water plants wisely. College irrigated lawn and garden early in the morning or late in the evening, so the water is not immediately evaporated by the hot sun.
- Check for and repair leaks. An average of 10,000 gallons of water is wasted every year due to household leaks. One of the most effective ways to cut our water footprint by repairing leaky faucets and toilets.
- Install water saving devices:  
Replaced old and leaking taps, toilets and bubblers with water efficient devices.
